Special Flight

FLYING IN NASCA
Ancient Nasca left us a message of appreciation for nature, life, respect to water and their deities. Many land sites have been desecrated in the past, you can see the figures of Nasca, thanks to Maria Reiche life for its efforts to conserve these figures and lines.

Enjoy this moment, you will fly to the past and feeling the wonderful

In this flight you can see 23 figures and trapezes. In a few minutes you get to the figure of the whale near a mountain, then you will see the triangle, such as the map indicates the following figures; the passenger will notify the right time to look under the wing tip. The plane is at the correct angle so you will see and take good pictures.
